

IDENTIFICATION KEY PAGE FOR SCHOOL USE ONLY

Here is an example of the school page with a sample of the students.

This list has been populated with fictional characters.

It has a random key, a school assigned student id number, the student name and birth data (date, time & location).

This page will remain with the school as an identification key.

randkey	idnum	student name	mm/dd/yyyy	24hh:mm	location
0038	BB34	Bruce Banner	01/6/1994	13:32	Atlanta Georgia

DATA PAGE FOR PROCESSING AT ALTISSIMA

This is the page that will be given to Altissima for processing.

It is the same page as above without the student ids and student names.

Only the random id number and birth data remain.

randkey	mm/dd/yyyy	24hh:mm	location
0038	01/6/1994	13:32	Atlanta Georgia
0039	01/6/1994	13:32	Hollywood Florida

GROUPED DEMONSTRATION CLASSES FOR EVALUATION AT SCHOOL

This is an example of the page that Altissima will return to the school.

It groups some of the students into three demonstration classes.

It is the same information received from the school, rearranged into demonstration classes.

The random student id number remains as an identifier with the birth data (date, time & location).

This key will be matched with the school key page to find the names of the students.

Classes may then be assembled and evaluated with complete privacy and confidentiality.

random id mm/dd/yyyy 24hh:mm location
